

QURAN EXPLAINS *Human* BRAIN

IT IS INTERESTING TO NOTE THAT SCIENTISTS IN THE 1930'S STARTED TO DISCOVER THE FUNCTIONS OF DIFFERENT PARTS OF THE BRAIN. ONE SUCH PART, LOCATED AT THE FRONT IS CALLED THE "PREFRONTAL CORTEX".

SCIENTISTS DISCOVERED THAT THIS AREA IS USED IN PLANNING AND INITIATING GOOD AND BAD BEHAVIOR - AND ALSO IT IS CONNECTED TO SPEAKING TRUTH OR FALSEHOOD.

ALLAH CHOSE TO INFORM US OF THIS 1400 YEARS AGO. THE VERSE BELOW INFORMS US THAT ALLAH WILL TAKE A PERSON BY THE FRONT OF THE HEAD OR FORELOCK.

“NO! IF HE DOES NOT DESIST, WE WILL SURELY DRAG HIM BY THE FORELOCK - A LYING, SINNING FORELOCK.”

(QURAN 96: 15-16)
